

Terms and conditions for using the Super calling card bonus money

1. Terms and conditions of bonus money:

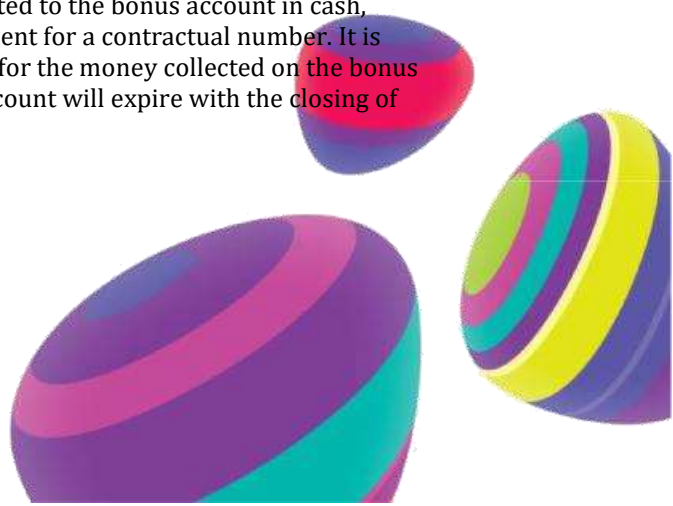

Telia Eesti AS Super calling card (hereinafter "Super") will provide each Super client with bonus money upon every fifth loading that complies with the terms and conditions of the service.

2. Recipients of bonus money

The discount will be given to all Super clients, who load their Super calling card according to the terms and conditions of the service.

3. Terms and conditions of Super bonus money:

- 3.1. The bonus will be given to a client who loads their Super calling card through the website of Super.ee, bank transfer, internet bank transfer reference of the ATM or Super mobile application (app).
- 3.2. Clients who load Super calling card with a loading code do not receive a bonus. Loading with a loading code will also include any loading codes entered through Super mobile application (app).
The bonus will not be applied in case of sponsorship loading (i.e. loading that is carried out from another calling card number or Telia contractual landline or mobile telephone).
It will also not apply to loading that is carried out at a Telia shop.
- 3.3. The bonus money will be calculated as the average amount of the last five loading times that comply with the terms and conditions established in clause 3.1, and transferred to the bonus account of the calling card. For example, if the last five consecutive loading times were the following: 3 €, 3 €, 8 €, 8 € and 3 €, the paid amount of bonus money will be $3+3+8+8+3 / 5 = 5$ €.
The amount of bonus money to be paid out can be up to 8 € even if the average amount of the last five loading times that complied with the terms and conditions of bonus money is actually higher.
The amount collected to the bonus account can be up to 50 €.
- 3.4. The bonus money can only be applied to use the services of Telia, including calls abroad, local calls, text messages and data communication. Bonus money can also be used to buy Super packages (voice, internet and combo).
- 3.5. Bonus money cannot be used for mobile payments, call or send SMS to numbers with special pricing and also not for roaming services.
- 3.6. If a Super client uses services for which they can pay from the prepayment on the bonus account, the credit balance on the bonus account will be used first and thereafter the prepayment amount on the main account.
- 3.7. If Super loading occurs under the terms and conditions established in clause 3.2 during the campaign period, the bonus collection will be interrupted and the calculation of the bonus amount will begin again from the next loading that complies with the terms and conditions established in clause 3.1.
- 3.8. It is not possible to withdraw the money collected to the bonus account in cash, transfer to another calling card or as prepayment for a contractual number. It is not possible to carry out sponsorship loading for the money collected on the bonus account. The money collected to the bonus account will expire with the closing of calling card.

- 3.9. The amount collected to the bonus account can be up to 50 €.
- 3.10. Information about the bonus account balance can be obtained with a confirmation text message received upon loading or a text message concerning the balance inquiry (*143# or text message "Balance" to number 9123).
4. Additional information:
Please see super.ee website or call the Telia information number 123 (accessible only from within the Telia network) or 639 7130 when calling from other networks.
